

Workshop: “Starting and Running an Effective Special Education Parent Advisory Group (SEPAG)”

All school districts in New Jersey are required to "ensure that a special education parent advisory group is in place in the district to provide input to the district on issues concerning students with disabilities" (N.J.A.C. 6A:14-1.2h).

This virtual workshop is designed to provide an overview of the role and function of a Special Education Parent Advisory Group (SEPAG) and discuss best practices, tips, and strategies for effective implementation of SEPAGs or other parent groups. Anyone interested in developing an effective parent group to support the engagement of parents to improve outcomes for all students, especially students identified for special education services are welcome.
