

2530 RESOURCE MATERIALS

The Board of Education shall provide resource materials to implement district and school educational goals and objectives as pupil needs dictate and district resources permit. Such materials include reference books, other supplementary titles, maps, library print and non-print materials, and other sources of information for use by pupils that are not designated as textbooks.

The Superintendent shall be responsible for the selection and maintenance of all resource materials, in accordance with the following standards:

1. Material will be suited to the varied interests, abilities, reading levels, and maturation levels of the pupils to be served;
2. Wherever possible, materials will provide major opposing views on controversial issues so that pupils may develop under guidance the practice of critical reading and thinking;
3. Wherever possible, materials will represent the many religious, ethnic, and cultural groups and their contribution to American heritage;
4. Materials will be factually accurate and of genuine literary or artistic value;
5. Materials will be of a quality and durability appropriate to their intended uses and longevity;
6. Materials will relate to, support, and enrich the courses of study adopted by the Board.

The Superintendent will develop regulations for the selection of resource materials that provide for the effective consultation of teaching staff members at all appropriate levels; ensure that the Board's budgetary allotment for resource materials is efficiently spent and wisely distributed throughout the instructional program and the district; and ensure an inventory of resource materials that is well balanced and well rounded in coverage of subject, types of materials, and variety of content.

The Superintendent will evaluate the continuing effectiveness and utility of resource materials and recommend to the Board the removal of those materials that no longer meet the standards set forth in this policy. Any request for the removal of resource materials will be governed by Policy No. 9130 on public complaints.

2531 USE OF COPYRIGHTED MATERIALS

The Board of Education encourages teaching staff members to make judicious use of appropriate printed materials, sound recording, televised programs, and computer software in the curriculum but recognizes that federal law, applicable to public school districts, protects the originators of those materials from the unauthorized use of their copyrighted works. The Board expressly forbids the use of school equipment for the illegal reproduction of copyrighted materials.

In order to define the fair and reasonable use that teaching staff members may make of copyrighted works for educational purposes without the permission of the copyright owner and to reduce the risk of copyright infringement, the Board directs the Superintendent to promulgate regulations regarding the copying and distribution of copyrighted materials for instructional purposes.

Computer software may be reproduced only for archival purposes or when copying is an essential step in the utilization of the program. Computer software should be purchased in sufficient quantity to permit its classroom use without simultaneous loading. Where appropriate, the Superintendent shall seek a licensing agreement with the software publisher that permits the reproduction of software, the simultaneous use of software, and the purchase of multiple copies of software at discount prices.

Pupils and staff members shall be instructed that copyright infringement is a form of theft. A pupil or staff member who reproduces or uses copyrighted material in violation of this policy will be subject to discipline.
