

JUNE 26 – 29

WARREN HILLS

ROBOTICS CAMP

Learn to code and build this summer at WHRC!

Warren Hills Robotics Camp is back for a third year of fun. Created by WH High School students, the program teaches elementary age kids to code and apply logical thinking. Using LEGO Mindstorms, students will be taught how to build and program their robots to perform a variety of tasks. We hope that early to exposure to Science, Technology, Engineering, and Math (STEM) will encourage students to pursue these fields in the future.

Register today at:

<http://tinyurl.com/2018WHRoboticsCamp>

Time:

9 am – 12 pm
June 26-29

Participants:

students going into
5th, 6th, and 7th gr
Spaces are limited
