Do you have a child with a disability
who is in middle or high school?

Join us for one or all of the sessions in a virtual series

Transitioning to Adulthood is important for students with a disability. Our series of six virtual workshops will discuss the process of transition planning at age 14 and its significance in student's lives. We will discuss how families, youth and schools must work together to achieve the best outcomes for students. Please come to learn and empower your child in the transition process.

*All sessions will have live interpretation into Spanish.
Los talleres se interpretarán simultáneamente al español.*
